REASONS FOR ALLOWANCE

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-16 are pending and allowed.

A further search of the prior art has been performed; no reference provides a teaching for food heating containing means having at least one panel made of a flexible multilayer film comprising at least one layer of PFA, at least one layer of FEP, and a core layer of PTFE.

The reference to Unwin (WO 01/00501) shows food heating containing means having outer layer of PTFE and inner layer of a weave of glass (p.2). The reference to Beale et al (US 2003/0047838) suggest substitution of woven glass layer with a blend of at least one fluoropolymer such as PTFE, PFA and FEP ([0024], [0025]). As stated by Applicant on page 8 of the Reply to the Office action mailed June 15, 2007, "[t]hough the Applicant is aware that Beale mentions the materials PFA and FEP, there is absolutely no teaching or suggestion in Beale that these materials be provided as layers as claimed".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
